CITROËN
RELAY
READY FOR
ANYTHING

AN EXTENSIVE CHOICE. THE CITROËN RELAY OFFERS AN IMPRESSIVE RANGE OF EQUIPMENT IN OVER 25 CONFIGURATIONS.

THE CITROËN RELAY HAS A GROSS VEHICLE WEIGHT OF UP TO FOUR TONNES, WITH PAYLOADS OF ALMOST TWO TONNES. THE CITROËN RELAY IS AVAILABLE IN FOUR LENGTHS, THREE WHEELBASES AND THREE HEIGHTS, ENCOMPASSING USABLE LOAD SPACES FROM 8M³ TO 17M³.

It is available in Panel Van, Enterprise, Chassis Cab and Crew Cab variants. With such a diverse and comprehensive range, the Citroën Relay can be tailored to meet the needs of even the most specialist customer. Powering the Citroën Relay are four diesel engines: HDi 110 optimised for low emissions and low fuel consumption, HDi 130, HDi 150 and HDi 180, all with exceptional pulling power. All four have 6-speed manual gearboxes to deliver the impressive performance that is associated with Citroën diesel technology.

› REAR PARKING CAMERA

Available as an optional extra on Panel Van models, the camera situated at the rear of the vehicle makes a great addition to the optional electrically folding twin lens door mirrors across the range. It transmits onto a screen in the cabin an image of the space behind the van, to make reversing easier and safer.

> INTERIOR COMFORT

The Citroën Relay has been designed to be a true extension of the office: three generous seats (driver's seat with height and lumbar adjustment and dual passenger bench seat), a quiet, well-insulated cabin, and a dashboard with multiple storage areas and clever features. A document clipboard integrated into the top of the dashboard keeps paperwork tidy, while a panel integrated into the back of the front dual passenger seat unfolds to become a work surface. Once you've finished working, your laptop can be stowed safely in the central one of two lockable glove compartments, specially designed to accommodate a laptop computer.

> PNEUMATIC SUSPENSION FOR EASY LOADING

Optional rear pneumatic suspension gives even greater ride comfort. The load sill – already very low even with standard suspension – can be lowered by another 7cm, giving the Citroën Relay one of the lowest load heights in its class.

EVERYTHING. AND MORE. INCREDIBLY VERSATILE, SPACIOUS AND COMFORTABLE, THE CITROËN RELAY IS READY FOR ANY PROFESSIONAL CHALLENGE.

AVAILABLE WITH A HUGE VARIETY OF EQUIPMENT INCLUDING A FULL STEEL BULKHEAD AND REAR PARKING SENSORS, BOTH STANDARD ON ENTERPRISE MODELS AND OPTIONAL ON PANEL VANS. THE CITROËN RELAY HARNESSES CITROËN INNOVATIONS, INTELLIGENT DESIGN, DURABLE ENGINEERING AND THOUGHTFUL DETAILS TO CREATE THE COMPLETE WORKING PARTNER.

> IN CONTROL

The Bluetooth® system allows you to make safe and efficient hands-free calls, whilst air conditioning keeps you cool in all situations. Both are standard on Enterprise and optional on all other models.

> SECURITY

Trafficmaster Smartnav on Panel Vans and Enterprise models guides you to your destination via a colour touchscreen displaying the route ahead. GPS Stolen Vehicle Tracking means that once you have arrived you can park and leave your vehicle in complete peace of mind. Includes 3 years' Smartnav Touchscreen routes, up to 100 routes per month, 3 years' Stolen Vehicle Tracking, 3 years' automatically downloaded live traffic information, 10 Personal Assistant Smartnav routes and 3 months' Safe Speed safety camera alerts.

GREEN EFFICIENCY. CITROËN HAS BEEN PIONEERING CLEANER, MORE FUEL-EFFICIENT MOTORING, SUCH AS THE COMMON RAIL HDi ENGINES NOW FITTED IN ALL NEW CITROËN DIESELS, LONG BEFORE ALL THE HYPE...

CITROËN HAS ALWAYS BEEN AT THE FOREFRONT OF GREENER TECHNOLOGY AND THE CITROËN RELAY MAINTAINS THAT TRADITION. IT'S WHY WE ARE THREE TIME WINNERS OF THE GREEN FLEET LCV MANUFACTURER OF THE YEAR, INCLUDING THEIR MOST RECENT, 2011 AWARD. TODAY, WE HAVE ONE OF THE UK'S WIDEST RANGES OF LOW EMISSION VEHICLES. WE ALSO PRODUCE ONE OF THE UK'S MOST ECONOMICAL LIGHT COMMERCIAL VEHICLES, THE CITROËN NEMO VAN.

Citroën is a leader in the manufacture of low CO₂ emissions vehicles

> ELECTRIFYING. HOWEVER YOU LOOK AT IT

Forget what you know about electric cars. Citroën Survolt concept combines undiluted glamour with advanced sporting dynamics, then adds a 100% electric drivetrain. Outside, LED lights, voluptuous curves, two-tone charcoal and fuchsia paintwork, and a race-inspired rear spoiler meet your gaze. Inside, a stunning blend of curved chrome, swooping glass, high technology and organic forms welcomes you to an entirely new place. But this is no simple styling exercise. At heart, Survolt is even more radical, because although it is designed to thrill, it is powered purely by silent, efficient, clean electricity.

> AIRDREAM – A BENCHMARK

When it comes to the environment we wanted to show our genuine commitment as well as our profound expertise, so we have devised a benchmarking scheme with the signature 'Airdream'. To qualify for the Airdream signature, vehicles must have an eHDi, electric or Hybrid4 engine.
